## Beloved Partners & Friends

I am horrified at how little passion - pure passion - I find among Christians these days. It seems the only passion is zeal mixed with pride. We have become so comfortable and so at ease and both of these are robbers of passion. I am seeing how easy it will be for the antichrist to move into the ascendancy and take control. When people are content, it is so easy for the enemy to come in and lead captive. The Lord declares, *"Woe to them that are at ease in Zion...that lie upon beds of ivory...that chant to the sound of the viol...that drink wine in bowls..."* Basically the Lord is talking to everyone who is selfish and self centered and that is most of the modern church. Most of what is done is done with mixed motives and not purity of heart. Jesus declared through his parable, *"And I will say to my soul, 'Soul, thou hast much goods laid up for many years; take thine EASE, eat, drink and be merry.'" Ease and comfort are passion robbers and if there is anything to set a fire burning again it is passion. A person can be a great concert pianist but if they lack passion, they will never be excellent or the best. I have a young student at the Academy who is 16 years old. This young student is passionate about soccer; I mean, he is so passionate about the sport that he cannot talk about it unless he starts to cry. He was in my office one day and I was simply chatting with him and asking him about his future. He started on about going to soccer school overseas, his love for the game and his vision. My heart ached*

## PASSION

for him as the opportunities he has are so limited by his being in Africa and lacking the financial resources. As he was talking to me he began to weep. No, his eyes did not merely get moist. The tears flowed in endless torrents. I thought maybe a parent had died or something bad had happened.

"Why are you weeping?" I asked him a little disturbed at the sudden outburst. "Because I love soccer so much." He sobbed. I might add here, that the boy loves Jesus too and comes from a lovely Christian home as I later discovered. How I wished he would weep with passion over Christ and not soccer.

The point, however, is that he has passion for soccer, such passion that he gets stirred to weeping tears. When did I last weep tears; passionate tears about being in love with Jesus? It is long overdue that we, as believers, are so passionate about Him and then we would be passionate about His work as well. There is altogether the difference in the world between being enthusiastic about the ministry or what I am doing and being passionate about HIM. When I am passionate about Christ, I will therefore be passionate about everything that I do with Him. Our passion has waned; robbed by the many other passions that we have in this life. Ask Him to fill you with His passion right now.

"Lord, I desire PASSION for you; a passion that I will not allow to be robbed by my passions for things in this life. Come, blessed Holy Spirit and fill me with great passion for Christ." When God gives this after you have seriously prayed, step out in faith and begin to exercise it. Passion must be released in the form of a shout, a declaration of love, weeping, laughing and general excitement that cannot be contained. It is time for the church to be passionate about Christ. Only then, will people take note of us and be convinced that we are serious about Him.

## DARK HOUR FOR ZIMBABWE

Please pray with us over the situation in Zimbabwe. The opposition won the elections last month except the president will not agree that he has lost and has demanded a recount. Government thugs have been given total liberty to do whatever they want to those who voted against the present government.

Three containers of arms (70 tons) from China are sitting off the coast of Durban, South Africa in transit to Zimbabwe. The dock workers union are refusing to off load them saying they do not want to be responsible for the end use of them in Zimbabwe.

DURBAN, South Africa, April 18 (UPI) -- A shipment of weapons for the government of Zimbabwe cannot be unloaded in South Africa and sent across the border, a court ruled Friday. The ruling came after South African stevedores refused to unload the arms from a Chinese ship in Durban, The Guardian reported. The cargo included rocket-propelled grenades and mortars, along with small arms. The South African Litigation Center brought the legal action before the High Court in Durban under a South African law that bans arms shipments to governments that violate human rights. The ship, the An Yue Jiang, left Durban a few hours after the court ruled. It was reported to be en route to Mozambique. Helen Zille, leader of the Democratic Alliance, the major opposition party to the government of South African President Thabo Mbeki, said Chinese machetes were shipped to Rwanda shortly before the 1994 genocide. "The mind boggles when one considers the damage that could be done with the consignment of arms sitting in Durban harbor," she said.

Mugabe has been in power for 28 years.

We have received this report.

The darkest hour is always before dawn. We are all terrified at what they are going to destroy next.....I mean they are actually plowing down brick and mortar houses and one white family with twin boys of 10 had no chance of salvaging anything when 100 riot police came in with AK47's and bulldozers and demolished their beautiful house - 5 bedrooms and pine ceilings - because it was 'too close to the airport', so we are feeling extremely insecure right now.

You know - I am aware that this does not help you sleep at night, but if you do not know - how can you help? Even if you put us in your own mental ring of light and send your guardian angels to be with us - that is a help - but I feel so cut off from you all knowing I cannot tell you what's going on here simply because you will feel uncomfortable. There is no ways we can leave here so that is not an option.

I ask that you all pray for us in the way that you know how, and let me know that you are thinking of us and sending out positive vibes... that's all. You can't just be in denial and pretend/believe it's not going on. To be frank with you, it's genocide in the making and if you do not believe me, read the Genocide Report by Amnesty International which says we are - IN level 7 - (level 8 is after it's happened and everyone is in denial).

If you don't want me to tell you these things-how bad it is-then it means you have not dealt with your own fear, but it does not help me to think you are turning your back on our situation. We need you, please, to get the news OUT that we are all in a fearfully dangerous situation here. Too many people turn their backs and say - oh well, that's what happens in Africa. This Government has GONE MAD and you need to help us publicize our plight--- or how can we be rescued? It's a reality! The petrol queues are a reality, the pall of smoke all around our city is a reality, the thousands of homeless people sleeping outside in 0 Celsius with no food, water, shelter and bedding are a reality. Today a family approached me, brother of the gardener's wife with two small children. Their home was trashed and they will have to sleep outside. We already support 8 adult people and a child on this property, and electricity is going up next month by 250% as is water. How can I take on another family of 4 ----and yet how can I turn them away? I am not asking you for money or a ticket out of here - I am asking you to FACE the fact that we are in deep and terrible danger and want you please to pass on our news and pictures. So PLEASE don't just press the delete button! Help best in the way that you know how.

Do face the reality of what is going on here and help us SEND OUT THE WORD. The more people who know about it, the more chance we have of the United Nations coming to our aid. Please don't ignore or deny what's happening. Some would like to be protected from the truth BUT then, if we are eliminated, how would you feel? 'If only we knew how bad it really was we could have helped in some way'. [I know we chose to stay here and that some feel we deserve what's coming to us] For now,--- we ourselves have food, shelter, a little fuel and a bit of money for the next meal - but what is going to happen next? Will they start on our houses? All property is going to belong to the State now. I want to send out my Title Deeds to one of you because if they get a hold of those, I can't fight for my rights.

*The Chinese ship the An Yue Jiang pulls out of Durban reportedly on its way to a port in Mozambique with it's three containers of arms for Zimbabwe.*

## UPDATES FROM KALIBU ACADEMY

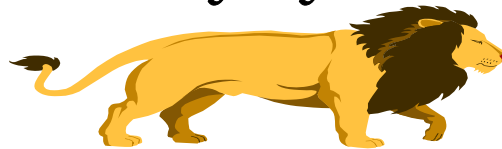

In March a team of seven people from Finland visited Kalibu Academy. They came to the Academy to work for six weeks. The men did tremendous work as carpenters. They made 60 doors for the hostels and also worked in the main hall on the sound room. Local workers were really amazed as they watched the team never tire despite the long hours. They were the first to start to work early in the morning and the last ones to finish at night. They set an excellent example for the local workers about the work ethic. They really invested in a team of local Malawian carpenters by teaching them how to use new equipment which was donated by Finland and how to work in a more productive way. The ladies from Finland helped the carpenters as well as assisting in the Hazel Winter-ton library. They also spent time with some of the problematic students, counseling them and helping them to get rid of their addiction to alcohol, smoking or other negative habits. (The schools in the Third World have much the same problems as the West). We thank our Lord for these faithful servants and their investment into the work of the Kingdom.

Also in March Kalibu Academy was visited by two teachers from England. Anne Adamson is a specialist in English language and Howard Copley is a specialist in Math. They came to watch and see how our teachers were operating and having 30 years of experience themselves there was much input and advice they could give the young teachers we have at the Academy. They were highly impressed by the order and discipline at Kalibu. They were surprised at seeing the very respectful attitude of students towards their teachers and other staff members. This kind of thing is seriously lacking in the Western World mainly because parents do not back the teaching staff but back their children no matter how badly behaved they are. In the West we send our kids to school and expect the teachers to bring them up because we are too busy about making money but we take from teachers and day care staff the ability to discipline in any form. We continue to have children but leave the majority of the upbringing to others same as we leave the spiritual nurturing of our children to Sunday School instead of doing it at home.
