**Beloved Partners & Friends**

It is wonderfully exciting to get into the flow of the blessed Holy Spirit as He moves you in revelation knowledge through the Word. In the world of medical research and knowledge, the ultimate is for an expert to discover a new virus. For me, there is nothing more exciting than to step into that flow and watch the Holy Spirit take you from one dynamic truth to another as He digs deep into the Word. So, I am thrilled as He unfolds a whole new course for me to teach in the Bible College that is way beyond anything academic. Of course most of us will say that we are aware of this truth but the moment I sit down with believers, I realize how far from the truth we really are. This new course is **THINKING LIKE CHRIST OR ADAM**. I am more and more amazed each day how we are so prone to think and therefore act like the world rather than Christ. We are bombarded with the mindset of the world to the degree that we actually accept and even believe that the world is right. Yet, the Word clearly tells us, *"For all that is in the world, the lust of the flesh, the lust of the eyes and the pride of life, is not of the Father, but is of the world."* John continues to put it so powerfully when he says, *"But the anointing which ye have received of Him abideth in you, and ye need not that any man teach you: but the same anointing teacheth you of all things..."* We simply have to live the Kingdom life and think the Kingdom thoughts. The first

## THE TWO ADAMS

man Adam was of the earth, earthy. The last Adam was a quickening spirit. Ah, there is the **DYNAMIC**: do we think like the earth or like that **QUICKENING SPIRIT** that is all about **LIFE, Zoe**? How the Spirit longs for that **RIVER** to pour out of us. The only way this is possible is for there to be a **FIRE** shut up in our bones. If we would only extricate ourselves from the thinking of the flesh we would live a fuller, richer life. How the Lord needs, yes needs us to be that kind of believer because it is by you and me - oh beloved, just get the enormity of this truth, yes, by you and me has the Lord made known to the powers and principalities in heavenly places the unsearchable riches of Christ, God's greatest mystery. What a marvelous truth is this but also what an enormous responsibility is ours. Think of it, ponder it and allow this truth to explode within you that the Lord has actually chosen to need us to be a dynamic testimony to all of His creation. This brings me to the point of our priesthood ministry. What kind of priest am I? Is my service to Godward passionate and exploding with relationship or am I dead religion? Without this type of relationship, it is impossible for us to be powerful kings who rule and reign over the natural order. Beloved, seize upon this amazing picture. As long as we are earthy like Adam we are never able to rule over the earthly. It takes the spiritual man in a persistent relationship with Christ who lives in a higher level to rule over the natural, the earthly. So, to be married to Adam keeps me bound whereas to think and live like Christ makes me free and gives me authority; the kind of authority I have never had before.

## MOM'S GRADUATION

What a celebration and what victory as I conducted Mom's graduation ceremony. The school students were present as we sang and rejoiced and gave glory to God for a life lived for Him. She was 87! The focus was fully on Christ and His victory and not on Mom or those left behind. It was a powerful testimony to the Malawian believers who so often act as the heathen during their funerals. The undertakers were horrified that I would not spend so much on a coffin especially when they discovered I was "Mr. Kalibu" and it was my mother. Mom never wanted an elaborate ceremony. Oh how vain and dead are the ways of religion and the world. Mom graduated and her body was set in a grave near her cottage overlooking the mountains she loved so much. We sang her favorite chorus, THE MOUNTAINS DECLARE THAT HE IS LORD... She was known affectionately as "Mom" to all and now "Mom" has fully graduated with honors and is with the Lord forever simply waiting for her body to be resurrected and glorified. It is not long now! Her coffin was lowered to the great, powerful song, "For I know that my Redeemer lives..."

## HOSPITAL OUTREACH

We continue visiting children in hospital. Our last trip was very special. Boys and girls were touched deeply during this trip. For many of them this was their first trip to hospital. Some students said that in the beginning they were afraid to be in hospital with sick people, and especially when they were praying for them and feeling that they had to lay hands on them, - they were afraid to touch these sick people. Some boys testified that they asked God to be with them and give them boldness, and they overcame their fears. When parents saw how passionately and with confidence they prayed, they started asking one or another student to come to their child and pray for him. They were witnesses that God was with these students.

### **Tupochele Lemani:**

"You should have seen the faces of those sick children and their parents when we sang and preached the word. There also was time to give to children crayons and books and we taught them how to color and they were so happy. I pray that one day these same kids will become somebody in future."

### **Evelyn Kulima:**

"We greeted sick children first. We could see some of them crying, some children had big heads and skinny bodies. We shared the Word of God, prayed and then sang for our Lord Jesus. Children

started being smiling and then rejoicing, and I could really see that God was doing His job. We could feel a great love of God in that place."

### **Sandra Machinjili**

"We sang for them few songs and children were happy. After that we preached to them the word of God. By the look of their faces it seemed that they found the preaching interesting. We had brought for them some things like food, books and pencils. As we were distributing them we could see how happy the children were. I believe God will heal these children and guide them and they shall no longer be in the hospital. It was such a great experience for me and I would like just to continue helping these people. I know, if we encourage them, children will know our Lord and He will heal and save them."

HOSPITAL VISITATION TEAM FROM KALIBU ACADEMY

# REPORT FROM KALIBU ACADEMY

'Let us close our eyes and pray.' These are the words of a form one (grade 7) girl praying in one of the assemblies which are held every morning before classes. After the prayer comes the singing of praise and worship with the keyboard under the control of the talented Pastor Frank and the sweet voice of Miss Maria churning out the praise and worship songs. After the mellow music comes a short sermon from one of the teachers. What a way to begin a school day. This is only happening at my school called Kalibu Academy, the only Christian Academy in Malawi.

Kalibu Academy is Christian school based in Blantyre, Malawi. It is in the Chileka area in Mbuka Village. The school has excellent facilities which have made other school owners green with envy. It is a fast growing school with the current enrolment of 659 students of which 450 are boarders. Considering that it opened its doors only a year ago in 2007, I can say it is a rapidly growing school. The school is causing shivers amongst other schools in the country because it provides high quality education at low fees. This September 2008 the school enrolled 125 form 1 lower students from primary schools in Blantyre, Lilongwe and Muzuzu. The picture below shows new students practicing their writing skills during the Orientation week.

What makes this school a place where every parent wishes to enroll their children is the discipline and Christian values imparted to the students. Under the capable hands of Pastor Michael Howard as the Headmaster, the school has managed to change the lives of many students for the better. Some of the students have enrolled with the school after being expelled from various other schools around Malawi for various misdemeanors. The Christian values have made Kalibu a school that parents want their children to be in at a time when educational standards are going down in Malawi.

The good name of the school has caused many Malawian parents leaving in and abroad to seek places in this reputable Academy. A day hardly goes by without a parent approaching the school administration looking to enroll his or her child at the school. The school has also very talented pupils. Here are some of the pictures taken during the performances by the students at the AIDS talk organized by Wing of Hope Malawi in conjunction with Malawi broadcasting.

Along with any other school, we have our challenges as well. One of the challenges we are facing is completion of the sports complex. A lot of work needs to be done in this area. It has been observed that an idle mind is a devil's workshop, and sport is a good thing to occupy the students. Also sport brings discipline to the students and if properly channeled, a healthy form of competition amongst our own students and those students from other schools. It also encourages a certain amount of pride in achievement. We need finance to build a complex which matches the other good facilities which we have at our school. We call upon all well wishers and supporters of the school to help us build the sports complex.

The sports field is ready for grass planting. We are waiting for the rainy season to plant the grass since we do not have boreholes to water the fields during the dry season. We are working on getting those boreholes sunk at the moment.

Despite these challenges we are facing, Kalibu has become the best school in Malawi, with the best Headmaster and staff, and the best supporters. To the people who made the academy a reality, may God bless you. To our supporters, please keep on supporting the school.

May God bless you all.

Malvern Jim

## UPDATES

Our missionaries from Mozambique will be back in the US for their Christmas/New Year vacation and to visit family and friends. They start out in Arizona and work their way up to Michigan.

If there are any groups or churches that would like to have them come and share please contact this office. They are an inspiration and will greatly challenge your faith. At this time when many are counting their pennies because of the economic situation, Jim and Eileen Kirt are a shining example of how to trust God and place your faith in Him. They lived in a tent and cooked over an open fire for literally months in the midst of mosquitoes, heat, rain and every other natural adversity until the finances finally came in for them to build a home. What a way for a new bride to begin marriage! Now God has blessed and is continuing to bless them and their ministry to the rural peoples of Mozambique.

They may never be recognized on a world-wide scale but they are written up in the annals of heaven and recognized by the Lord for the lasting work which they have labored over. If they are in your area please welcome them and honor them for their part in the greater work of the Kingdom and glean everything that you can from them because they have much wisdom to impart.
